## **Return A Mirror's Brightness**

When a mirror gets foggy over time, it may not be a result of improper upkeep. It's most likely a hard-water buildup or a film caused by landing airborne materials. In most cases, **Crème Cleanser** helps return a mirror to its original shininess. Here is simple trick for brightening dulling glass and stainless mirrors.

**1**

**2**

1. Apply Creme Cleanser to a soft, clean, damp cloth.
2. Very gently rub onto a glass mirror surface.
3. Rinse well with fresh water and wipe dry.

## Window Cleaner Concentrate Formula 2420

Makes 128 Quarts of Spray Bottle of Cleaner

- Glass & Multi-Surface Cleaner
- Streak-Free & Fast Drying
- Biodegradable & VOC Exempt
- Free of Solvents, Ammonia, Butyl, & Glycol Ethers

# Primo-Pro™

## High-Performance Wet Mop

*We GUARANTEE our Claim*

### Slash Mopping Time & Improve Results

- Absorption
- Soil Capture
- Strand Strength
- Liquid Release
- Washability
- Overall Durability

We use yarn combinations that allow us to build the best performing wet mop ever!

**Primo-Pro** mops absorb more liquid, and faster, than other mops.

Even when it's new, a **Primo-Pro** absorbs 100% of its capacity as the mop enters water. **Primo-Pro** mops enjoy maximum performance long after regular mops get thrown away.

### Item No. 3150-50

**Wide or Narrow** Headband

Sizes: 12, 16, 20, & 24 oz.

**Primo-Pro** wet mops absorb and release liquid very well. Therefore, wet mopping will not lead to over-wetting or needing more than one trip to the wringer after picking up.

Our detergents easily release dirty water as a mop or cloth is swished in the washing solution. At the end of a job, a quick rinsing of a mop, cloth, bucket, sink, etc. will leave everything thoroughly clean.

### Primo-Pro Starter Kit

## Finish Application Mop

### Perfect Streak-Free Release

Our high-quality finish mop will make a great difference with the outcome of your floor refinishing job.

Floor finish gets applied smoothly and evenly which allows for quicker drying.

Mop strands are stitched side-by-side to the tailband to help ensure a continuous fanning style.

Mop Ends Are Looped

**We Offer The Best... At Truly Great Prices.**

## Carpet & Upholstery Cleaning System

### Tantum-1 Carpet Cleaner Concentrate

*Achieve The Best Results Ever... Guaranteed*

**Total Soil Removal • No Stiffness  
Excellent Color Restoration**

#### Total Cleaning In 2 Easy Steps

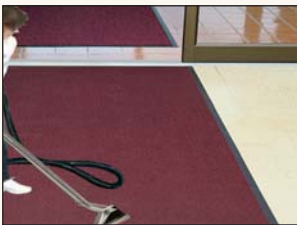

1. Mix **Tantum-1** with warm water and spray liberally onto carpet. Let set for 20 minutes.
2. Fill extractor with cold water and rinse the carpet well.

**Tantum-1** may be used to clean most fabrics. Thoroughly-cleaned surfaces help prevent rapid resoiling. Any moisture remaining in the fabric or carpet will dry more rapidly and without an odor. **Tantum-1** is Non-Butyl, VOC-Exempt, and Biodegradable.

#### Tantum-1 Mixing Rates

- Deep Extraction - 4 oz. Per Gallon Water
- Bonnet Surface Cleaning - 1 oz. Per Gallon Water

#### No. 4450-05

Sold In  
Gallons & 55 GL Drums

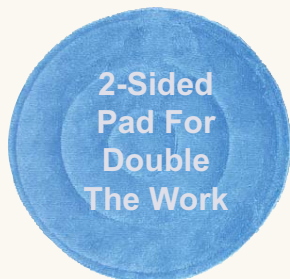

#### Deep-Clean Door Mats Onsite

Improves facility sanitation and appearance.  
Cuts laundry service costs and allows for better attention to high-soiling areas.

## Products for Bonnet Cleaning Carpets

### Microfiber Carpet Scrubbing Bonnets

Highly-absorbent two-sided pads with foam insert. Ensures pulling more soil and moisture from carpet which allows for quicker drying.

- Microfiber – 80/20 yarn blend.
- High double-sided profile yarn.
- Diameter sizes: 17", 19" or 21"

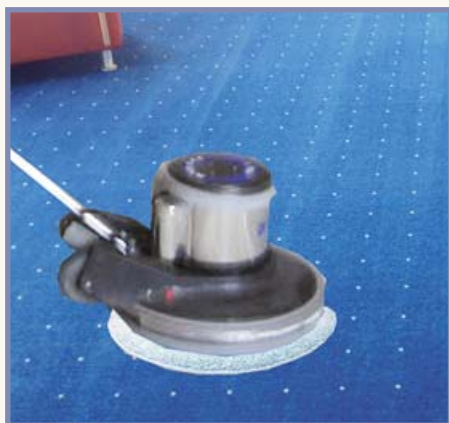

#### Series No. 1217-22

Round Pads Sold 2 Per Case

Rectangular Pads  
are also available.

Bonnet-cleaning is an interim process that is used to remove surface soil and also helps to prevent soil from being pushed deeper into fibers. A bonnet must be clean and dry in order to absorb soil and solution.

#### Three Easy Steps For The Best Surface Cleaning

1. Mix as per bottle label.
2. Spray onto carpet.
3. Buff with pad.

Carpet will dry quickly.
